

Biography:

Marc Simone, PE

Marc is the Vice President of Operations and Engineering at SEMCO Energy based in Port Huron, MI. SEMCO Energy provides natural gas service to over 310,000 customers throughout Michigan. Marc is responsible for all aspects of SEMCO's gas delivery system, including emergency response, construction, design and gas operations.

Marc has been with SEMCO Energy since 2007 and has had various responsibilities in engineering, system planning, gas control, gas storage, procurement, facilities, environmental and safety. Marc has worked to develop and implement SEMCO's Main Replacement Program that has allowed SEMCO Energy to eliminate all cast iron piping systems and reduce fugitive emissions by over 50%. Marc started his career in 1991 with DTE Gas, moving through various roles from transmission design and system planning to management of the Belle River Gas Storage facility.

Marc is a licensed Professional Engineer and has a degree in mechanical engineering from Michigan Tech and a master's degree in administration from CMU.
