

Biography – January 2023

Andy Bochman

Senior Grid Strategist-Defender
National & Homeland Security
Idaho National Laboratory

Andy provides strategic guidance on topics at the intersection of grid security and climate resilience to INL leadership as well as senior U.S. and international government and industry leaders. A frequent speaker, writer, and trainer, in 2021 he published *Countering Cyber Sabotage: Introducing Consequence-based Cyber-Informed Engineering* (Taylor & Francis). An Atlantic Council non-resident senior fellow, Andy recently published “A Heat Dome Hits Virginia,” which portrays the national and global impacts of a prolonged extreme heat event in northern Virginia (Security Management, 2022). His previous organizations include the US Air Force, IBM, and the Chertoff Group in Washington, DC.
