

**Kelsey DeCarteret, Meteorologist  
DTE Energy**

Kelsey DeCarteret is a Meteorologist at DTE Energy, where she is responsible for monitoring and forecasting weather-related impacts to the electric grid. Her work provides critical information to support DTE's daily operations, enabling proactive and efficient resource planning for faster and safer customer restoration. Kelsey began her career at DTE as a student co-op and assumed lead meteorologist responsibilities in 2022. She holds a Bachelor of Science degree in Meteorology and Atmospheric Science from Penn State University.
